SCHOOL of the PROPHETS

THE SCHOOL OF THE PROPHETS is governed by **Apostle Mitchell Calvin Brown** and is a teaching and equipping ministry of Dawn of a New Day Ministries.

Harvest International Ministry is an apostolic and prophetic network working together with Christ-centered churches, leaders and individuals where relationship, support, accountability and resource occur. We are a network of apostles, prophets, evangelists, pastors and teachers united to be sent for the purpose of fulfilling the apostolic mandate of the Ekklesia (Called Out Ones - "The Church").

1 The early church operated under a spiritual government where these ascension gift ministries were in full operation, working as teams, equipping and releasing saints to do the work of ministry. It is essential that this form of apostolic and prophetic order be restored in the Body of Christ.

Prophetic... Ministry

SACRIFICE IN PROPHETIC MINISTRY:

True prophetic ministries are unpopular, and uncompromising they strive in own discomfort and personal sacrifice. True prophetic ministries are unconcerned with men's opinions about them, they often times speak the words given them, hoping in their hearts they do not come to pass, they are mocked, rejected and misunderstood, yet they do the work nonetheless, for it is their calling, their duty, and their reasonable service to God.

OPERATING IN PROPHETIC MINISTRY

This prophetic ministry operate in the office of a prophet, and move in the gift of prophecy, knowing and prophesying in part (1 Cor. 13:9). The prophetic minister's responsibility is to listen to the Holy Spirit and accurately speak what they hear; the recipient's responsibility is to judge their words according to the Word of God. "Do not despise prophecies. Test all things; hold fast to what is good" (1 Thes. 5:20-21).

is a process of communication and is relationship based. One definition of the many that have been proposed,

Mentoring

is a process for the informal transmission of knowledge, social capital, and the psychosocial support perceived by the recipient as relevant to work, career, or professional development; mentoring entails informal communication, usually face-to-face and during a sustained period of time, between a person who have greater relevant knowledge, wisdom, or experience.
